

ECLIPSE STONES

GLOBAL LEADERS IN EXPORTING NATURAL STONE

WHAT WE DO

We source premium granite blocks directly from mines across Rajasthan and South India.

Each stone is selected for consistency, durability, and export-grade quality, supplied to markets across **Asia, Europe, and the Middle East.**

Alongside raw block exports, we support custom and complex fabrication requirements tailored to project-specific needs.

Our focus remains simple: reliable sourcing, precise execution, and long-term material performance.
